Bahare Salehi

DATA SCIENTIST / MACHINE LEARNING ENGINEER

Brussels, Belgium
salehi.bahaar@gmail.com
bahsali.github.io/bahare-portfolio | linkedin.com/in/bahare-salehi-b5765ab0

Final-year PhD researcher developing machine learning models and data applications, with experience in real-world data integration, time-series analysis, optimization and interactive tools.

EXPERIENCE

PhD Researcher • *Université libre de Bruxelles* — 2023–Present

Develop ML models to estimate citywide traffic using public transport data. Integrate real-time, geospatial and API datasets; build Python evaluation pipelines and an interactive Streamlit application.

Visiting Researcher • *University of Passau* — 2022–2023

Designed Python experiments to assess evolutionary optimization algorithms, including GA and NSGA-II, focusing on runtime and robustness.

Researcher • *Research Institute of Petroleum Industry* — 2020–2022

Applied optimization to seismic data for pseudo-well estimation; built a desktop application for experiments and analysis.

ERP Systems Analyst • *Farabord* — 2019–2022

Analyzed business workflows and developed SQL-based reports and custom forms in an ERP system.

TECHNICAL SKILLS

Programming & data
Python, SQL, Pandas, NumPy, data integration

Machine learning
PyTorch, TensorFlow, MXNet, scikit-learn

Modeling & analytics
Time series, spatiotemporal, signal processing

Optimization
Genetic algorithms, NSGA-II, multi-objective optimization

Tools & applications
Streamlit, QGIS, REST APIs, Git, visualization

EDUCATION

PhD · Computer Engineering
ULB, Brussels · 2023–Present

MSc · Software Engineering
Shiraz University · 2016–2019

BSc · Software Engineering
Islamic Azad University · 2010–2014

RESEARCH PROFILE

Publications in ACM SIGSPATIAL, AAAI & GECCO

Google Scholar: 170+ citations · h-index 3
